

How to Stay Safe Online

Everybody needs to be friendly online. Do you know if your kids are safe online? Do you know how to stay safe online? Well let's find out!

Cyberbullying

Tell a trusted adult if you are being cyber bullied (someone being mean online).

Tips for adults

- Ask what they are on.
- Let them buy things without your permission
- Them not to click on suspicious websites.
- Check their search history
- **Keep personal details private:** Never share your home address, full name, phone number, or school name with strangers.

Use strong passwords

Create unique passwords using a mix of letters, numbers, and symbols, and never share them with friends

Think before you click

Avoid opening strange links or downloading files from people you do not know, as they may contain harmful malware.

Talk to a trusted adult: Report any uncomfortable messages, cyberbullying, or strange online requests to a parent or teacher immediately.

Facts for kids

But did you know that 25% of people get scammed online every year, its mind blowing!

If you want to stay safe online follow these rules!
